Why Aichi–Nagoya?

Five Reasons

If you are planning a MICE* event, Aichi–Nagoya is a perfect location. As well as offering complete conference facilities and easy access, it is attractive both as a dynamic center of advanced technology and for its rich legacy of tradition. These advantages attract numerous organizations to hold their international conferences here. In consequence, people who have attended these events rate their experience highly. Here you can find out more about the five reasons to hold your MICE event in Aichi–Nagoya.

*MICE, visits for Meetings, Incentives, Conventions, and Events/exhibitions

Advanced Technology and Rich Tradition

Located in the middle of Japan, Aichi–Nagoya has long been a point of exchange and interaction. This geographical character nurtured distinctive regional traditions. Growing out of the complex techniques required to build Nagoya Castle, advanced industries have flourished and attained world-leading status. For the past 40 years, the region has annually occupied top spot for industrial output in Japan.

Complete MICE Facilities

In terms of both quality and number, Aichi–Nagoya has complete facilities to smoothly accommodate international MICE meetings. Event organizers also appreciate cost efficiencies when compared with other major cities. Nagoya Congress Center is one of the best venues in Japan, and we have hosted numerous successful conferences and distinguished guests from Japan and overseas.

Excellent Access

Located between Tokyo and Osaka, Aichi-Nagoya is one of the biggest crossroads for expressways and railways. The Shinkansen bullet-train takes about 100 minutes from Tokyo or 50 minutes from Shin Osaka. Meanwhile, CHUBU CENTRAIR International Airport provides a gateway to the world, and Nagoya Airport also has air links to the cities in Japan. By sea, travelers can disembark from large cruise vessels at the Port of Nagoya. To anyone attending a MICE event in Aichi-Nagoya, ease of travel is a great attraction.

Local Support and Hospitality

The growth and development of regional hospitality in Aichi-Nagoya has been encouraged by the hosting of numerous international MICE events. Meanwhile, to support organizers, the Nagoya Convention & Visitors Bureau has an extensive menu of practical support services. In addition, since 2015, the Aichi-Nagoya MICE Promotion Council has been working to provide region-wide support for MICE organizers.

A Reassuring Record of Experience

Proving how well the merits of the venue are recognized by MICE organizers, annually more than 200 international conventions are held in Aichi-Nagoya. So far, the two most prestigious conventions have been COP10, the tenth meeting of the Conference of the Parties to the Convention on Biological Diversity in 2010, and the UNESCO World Conference on Education for Sustainable Development (ESD) in 2014. Based on the experience of hosting such important conferences, to both conference organizers and attendees, we can offer seasoned support and a warm welcome.

A hub for high-speed transportation networks

Location & Access

As the heart of Japan, Aichi–Nagoya pumps the lifeblood of the Japanese economy through vital arteries of transportation. Located just 30 minutes from the city center, CHUBU CENTRAIR International Airport serves as a gateway that connects Aichi–Nagoya to cities in Japan and abroad. Expressways and Shinkansen superexpress rail lines also make Aichi–Nagoya a transportation gateway for easy travel to other destinations in Japan.

Ukai (Cormorant Fishing) on the Kiso River

With a history of around 1,300 years, cormorant fishing is a traditional method in which fishermen and cormorant birds work together to catch fish. With an illuminated Inuyama Castle in the background and lit by bonfires, the beautiful night scenes are like pictures from an ancient scroll.
